More detail...

The Evolution Claymate is a top-of-the-range Multitrap Controller for up to 8 traps.

Operation is simple & intuitive for stress free 5-Stand and Compact Sporting operation.

The LCD shows the stand, the shooter, the target(s) and target types; singles, true pairs, following or on-report pairs, permitting more attention to scoring and less to buttoning.

Stand fixable, shooter controls for Fire/No-Bird with shooter indication to be released soon.

Computer control protocols available for third party Scoring and Card Printing software.

Dynamic Flurry sequences for simulated game.

The System is designed for growth and expansion to encompass any discipline ever likely to be created in the future using up to 8 traps, with the main controller (not shown) designed for up to 12 traps.

The preferred platform for two games to be released in the USA in 2004

Compatible with the Sporting Multitrap Handset.

One of a range of “Mix-n-Match” Claymate Systems to be released.
