# Claymate

## **Junior Multitrap Claymate** Advanced Trap Controller for up to 8 traps.

### **Main Features**

Similar features to the full blown "Evolution" but without the price tag.

**Large LCD for simple Menu Driven Operation.**

**Sporting, FITASC, 5-Stand, Compact & Flurries.**

**6 NSCA sequences built in with space for 6 more.**

**6 Flurry Sequences designed by Pete Munn of 'Clay Snooker' and space for 6 more sequences.**

**Simple, Menu Driven, Sequence Programming.**

**Tough Rubber Protective Boot.**

**Internal Audit to 10 million targets**

---

**The Release Controller, (not shown) comprises a sealed Plastic Enclosure containing power distribution and 8 relays to fire the traps.**

**An external 12 volt supply is required.**

**Will operate 110 volt release traps directly.**

### **More detail...**

**The Junior Multitrap is available in two flavours, Basic and Advanced.**

**The Basic model is ideal for fixed installations where flexing of the 12 core cable is limited.**

**The Advanced model (using a 3 core cable) allows the Sporting Multitrap Handset to be used as an option and permits an easy upgrade of the Release Controller to a Sporting Multitrap or an Evolution Release Controller with full Clay Counting and Trap Detection.**

**We recommend the Advanced version in all cases where there is the possibility of either an upgrade to Clay Counting in the future or if the interconnecting cable is expected to be continually flexed or extended.**

**The Advanced Controller can be fitted with a remote 2 button "Fire" & "No Bird" handset.**

**The Junior Multitrap is a highly developed Trap Control System packed with features as yet unrivalled in a single product.**

**It is also an ideal basic platform for any new Multitrap discipline requiring a control system.**
