More detail...

The System throws truly simultaneous targets simply by pressing buttons as required. Hitherto unseen target combinations can be launched with ease.

The Solo Delay feature allows following targets like...

- A single followed by a true pair...**
- A true pair followed by another true pair...**
- A triple followed by a single...**
- ...as well as plain single targets.**
- If you can press it, Claymate will send it....**

The handset is compatible with the Evolution Controller allowing this handset to replace the LCD equipped version for day-to-day use, if required.

This is one of a range of "Mix-n-Match" Claymate Systems to be released.
