

Claymate

BLN Technical Services

Sporting Claymate
Industry Standard Sporting Controller
for one or two traps.

Main Features

The most popular Controller of the Claymate range.

Be it serious competition or day to day use, The Sporting Claymate offers precise target presentation when it matters. Secure Clay Counting & Auditing ensures rapid return on investment plus reduced operating costs, increased target sales and high customer satisfaction.

For 1 or 2, single or double arm traps.

Presents Singles, True Pairs and Following Pairs.

Solo Shooter Friendly with audible countdown.

Spare handset input for second handset.

Four timers for all permutations of following targets.

Non volatile audit counter to 10 million targets.

Stuck Button detection.

Wall mounting or floor stand included.

Standard 3 metre handset with custom lengths to order.

2 metre trap cables. Waterproof connectors available.

Secure and fraud proof.

More detail...

The Sporting Claymate is powered from the 'A' side trap using 2 core release cable.

'B' Trap detection allows the unit to replace calls for a non existent 'B' trap with a target from the 'A' trap permitting intelligent single trap operation even with a 3 button handset.

(Single button handsets are available).

The ability to correctly count double throw traps allows any mixture of traps to be connected without presenting the Solo Shooter with more than two airborne targets.

The four adjustable trap timers provide exact and precise following target presentation irrespective of whoever presses the button eliminating shooter dissatisfaction and arguments with competition trappers.

Without a valid counter, the Claymate cannot launch targets yet it remains 'active' to button presses and will even detect stuck buttons and issue a distinctive warning.

Ask us about our submersible connectors.
