

BLN Technical Services

Claymate

“Super Junior” Claymate Home Edition Trap Controller.

Main Features

An Ideal Controller For Individuals With Their Own Trap, or a Small Club.

Replaces Trap Manufacturers Release Option.

Solo Shooter Delay.

Versatile Target Presentations from 2 traps.

Equally At Home Using Just One Trap.

Adjustable Following Pair Delay.

Safety Feature To Cancel Delayed Launch.

Equally at home in a small club environment where target revenue is not an issue but manpower is.

More detail...

The Super Junior Claymate is designed to be a superior alternative to Trap Manufacturers Release Options, these typically being a simple button in a box, or a foot switch.

BLN specialises in Release Technology. Trap Manufacturers... Don't.

Powered from the release cable, (no batteries needed), The Super Junior is useful with only one trap connected but it comes alive with two.

Even Small Clubs find the Super Junior a boon where manpower is the limiting factor.

The Delay Feature allows the Lone Shooter to enjoy pairs, singles and following pairs without additional help. No muddy footswitches to mess up your balance and no more rushed shots after dropping the original button box.

Adjustable Following Pair Delays make an interesting variation too.

The tough, powder coated, die cast aluminium case, clips to your belt or your pocket. Large buttons are easy to find even with gloves.

A Wireless Version, The Super Junior (Radio) is available.
