Claymate

Super Sporting Claymate 3-Trap Sporting Controller for one, two or three traps.

Main Features

Designed to satisfy the requirements of John Bidwells "Super Sporting" discipline.

For up to 3 traps.

Presents Singles, True Pairs and Following Pairs.

Solo Shooter Friendly with audible countdown.

Non volatile audit counter to 10 million targets.

Stuck Button detection.

Wall mounting or floor stand included.

Standard "Super Sporting" handset.

Three button A, B & C handsets also available

Waterproof connectors available.

Secure and fraud proof.

Trap powered (3 core) or local supply for 2 core traps.

Auxiliary power out for optional radio.

More detail...

The 3-Trap Sporting Claymate is powered from the 'A' side trap using 3 core release cable OR from a local supply in to the Claymate permitting 2 core trap cable compatibility.

The ideal Claymate to either 'mop up' surplus traps and make a stand more interesting, or to concentrate more traps into fewer shooting stations for really compact grounds.

Two handset options; a 4 button "Super Sporting" (standard) or a 3 button A, B & C handset. These are typically 3 metres but can be made to any required length.

Versatile powering options permit a second Claymate or a radio to be powered from the back of the unit making this Claymate a real problem solver when you want to use up spare traps but not make the installation too permanent, unless you want to.

Novel following target selection and presentation are a mark of Claymate care and design

Without a valid counter, the Claymate cannot launch targets yet it remains 'active' to button presses and will even detect stuck buttons and issue a distinctive warning.

Ask us about our submersible connectors.
